

What's new at CPPE

Digital confidence is vital for every pharmacy professional. This new CPPE [Digital Health and Clinical Informatics](#) e-learning offers a comprehensive introduction to the world of digital, data and technology. Developed by pharmacy experts from across all settings, this learning resource covers key areas including digital systems, data management, cybersecurity and clinical safety and risk.

If you did not have the chance to join us during **National Inclusive Pharmacy Practice** week you can now access recorded webinars and some key reflections on our website [here](#)

[Autism and ADHD: supporting inclusive person-centred care](#) e-learning aims to enable pharmacy professionals to make a positive difference in every day practice to support autistic people and people living with ADHD
